

Eclarix Enterprise

Event Management System

"The End Of The Status-Quo"

Eclarix Enterprise allows your organization to track, analyze and review reportable events that occur daily, allowing for *rapid response* to events from risk management and human resources, easily accessible data for quality control and research divisions, and global awareness of events and trends for senior management. Rapid turnaround of event reports allows managers and staff to review more events in less time and respond to events quickly. *Trend analysis, scheduled reporting, and comprehensive review* ensure that no event goes unreviewed, and that all events are tracked, followed-up upon, and remedied. Eliminate the paper, improve your efficiency, and fast-track your review. Say "Good-Bye" to the Status-Quo.

Improve Efficiency
Improve Response
Eliminate Paper
